

Find Course Reserves at UTSC Library

Physical course reserves are available just inside the entrance of the UTSC Library.

1. Find course reserves on the library webs for your class: [UofT.me/7i1](https://uoft.me/7i1). Search your course code with an asterisk (e.g. polc54*) or the title of the textbook or other item you want to find (e.g. “Canadian Federalism: Performance, Effectiveness and Legitimacy”).

To filter by course reserves, select the magnifying glass in the search box and replace the “Everything” option in the drop-down menu with the “Course Reserves” option.

2. Note the call number (e.g. JL27.C493 2020) for the textbook or item you want to find.
3. Use the call number to find the item on the shelf.
4. Borrow the item using the self-check-out machine.

Can't find your course reserves? Ask for help at the [Information & Reference Desk](#) located at the front of the Library. Looking for online [course reserves](#)? See the Library Reading list module on your Quercus course page.
